

# SUFFREC & ITS OUTCOMES

- Bharat Gotame\* & Bishnu Prasad Thapaliya\*\*

"Only one Earth" to "Melting Ice: Hot Issue" are the theme of World Environment Day. From the theme of environment day, we can easily know the recurrent features of Earth. Nepal, being a developing country, followed by key challenges, requires synergies for sustenance. Its people depend largely on natural resources to eke out their living. Its natural resources are dwindling at a fast pace. As a result, the living condition of the poor and the ultra –poor are appalling, for instance, unending lists of problem created in day to day life. We should now begin thinking of the alternatives and consequences seriously and implement them. Public awareness is essential to stop deforestation and natural exploitation. We should act soon because the price of doing nothing now might be too expensive for us later.

"Student Forum for Forestry Research and Environment Conservation (SUFFREC) 2006" is a common forum forwarded by the dynamic and energetic students of KAFCOL. It stands against national and international environmental disharmony induced by imbalance use of natural resources, growing industrialization, unmanaged urbanization etc. It has been involving in awareness creation not only among the students of Kathmandu Forestry College but also among the school and college level students, general public on the environmental issues. It believes on non-formal education on environment conservation.

Student Forum for Forestry Research and Environment Conservation is a non profitable, non political and non-governmental student's organization whose activities are carried out voluntarily by its members (the students of KAFCOL). It was established in 2063 B.S with the concerted effort of the KAFCOL students and is veered solely by the efforts and inspiration of the students of KAFCOL. The organization acts on the theme "Think globally, act locally" with multidisciplinary approach to achieve the objectives. Bold initiation, track to achieve the goal, is the component of the SUFFREC for the future and second generation of the world.

## Activities what we did:

- Co-ordination with college for celebration of World Environment Day, World Wetland Day, etc.
- Organizing "Cleaning " campaign around college area.
- Appeal to DEAN'S office for the co-ordination on several issues.
- Organizing sport program on the occasion of "Campus Day"
- Dialogue with College Board member for different crucial issues.
- Assist students to participate in extra curricular activities.
- Organizing welcome program for the new batch.
- Publication of **The Initiation** annually.

## The Way forward:

- Organizing the conservation & awareness program in school and college level.
- Carrying out research activities in natural resources regime.
- Initiating the perpetual excellent co-ordination with INGOs, NGOs, CBOs and governmental organization for the natural resources conservation.
- Perpetual publication of "The initiation" annual.
- Conducting workshop and dialogue program on forestry related burning issues.
- Collaborate with KAFCOL for appropriate management of studies and extra-curriculum activities.

## The Founder committee of SUFFREC:

Chairperson	: Mr. Kumar Bahadur Darjee
Vice-Chairperson:	Ms Shrota Shrestha
Secretary	: Mr. Bharat Gotame
Vice-Secretary	: Mr. Dipak B.K
Treasurer	: Ms Indira Shrestha
Member	: Mr. Shambhu Paudel
	Mr.Saroj Thapa

Suraj Upadhyaya

SUFFREC, beside the conservation world, scatters its activities towards student welfare, which will promote the student towards the track of conservation. The reason behind the initiation of organization is to offset the degraded ecosystem and to encourage the human being to increase the human beneficiary through proper natural resources.

Last but not the least, SUFFREC welcomes all the suggestions, comments and strong initiation to safeguard the future of biodiversity.
