

Editorial

With the kind co-operation from our colleagues and higher authorities I am pleased to come forward with the publication of the third volume of Medical Journal of Shree Birendra Hospital on the auspicious occasion 75th platinum jubilee anniversary of our Hospital.

I am happy to receive manuscripts of original works and research being conducted in our hospital from all the specialties and from all ranks.

With the beginning of new millennium our hospital is getting equipped with advanced medical technology and we will be able to come forward with some new medical experiences with minimally invasive surgical procedures for example laparoscopic surgery, thoracoscopic surgery, etc.

With advancement in the information technology and Internet connection we hope to make our new publication available in web site.

I am sure this publication will help for a better exchange of medical knowledge among are colleagues in our hospital and outside institutions and help for better care of patients.

In the next issue we wish to add a new column of letter to the editor and we wish to receive letters from our valuable readers.

I wish to thank all the members of the editorial board, the senior advisors and the junior staffs for their kind help in publishing this Journal. Also I wish to thank all the contributors for their medical advertisement in this Journal.

With Best Wishes.

Chief Editor

Lt. Col. Dr. Gambhir Lal Rajbhandari

Consultant Cardio Thoracic Surgeon

Shree Birendra Hospital

Chhauni, Kathmandu, Nepal
