Message

Nepal Engineers' Association, Gandaki Province wishes each one of you the very best. We would like to convey our blissful that we are able to publish first volume of Technical Journal. Nepal Engineers' Association (NEA), Gandaki Province is an independent nonprofit organization of Nepalese engineers, registered under the Social Service Act of the Government of Nepal. NEA was established in 1962. Today, it represents near about 30,000 engineers, belonging to various engineering disciplines including architects, civil, electrical, mechanical, computer, electronics, geomatics etc. and coming from both the public and private sector economies. Technical Journal is a growing academic publication in the fields of Engineering Sciences like Civil Engineering, Computer Science, Information Technology, Electronics Engineering, Electrical Engineering, Mechanical Engineering etc. The main mission to publish journal is to enhance or devote to research and global dissemination of academic information. We try to create a new dimension in the field of Technical writing. This Technical Journal includes all papers from Engineers scholars. Most of the papers raised the burning issues of Gandaki Province in the field of flooding, landslides and environment. Some papers focused on creativity and innovation in different engineering sector like civil, electrical, electronics, information technology and environment. The content and depth of knowledge included in these papers will serve to engineering society. This Technical journal will be burning candle for engineering graduates student to discover out their approach for writing. Nepal Engineers Association, Gandaki Province is grateful to all engineering scholars who input their full strength providing quality researched papers. NEA - Gandaki try to create an academic platform for scholars by publishing this Technical Journal. As Chairman of publishing organization, I am very grateful to its editorial team. I would like to congratulate all the strength full hands which move ahead for the successful publication of newly first Technical Journal. I hope this will be our great joyful experience in the publication field. I am very delighted to convey that engineering community will be highly benefitted by this Technical Journal. We are always open to creative and constructive feedbacks from all the stakeholders who are touched with this Technical Journal.

Finally, Nepal Engineers Association, Gandaki Province is thankful to all engineering professionals, industrialists, entrepreneurs and scholars who involved for the publication of this Technical Journal. We have realized that support and cooperation of all the stakeholders are key strengths for growth and sustainability of this publication. Thank you all!

Ar. Babu Ram Bhandari

Chairman

Nepal Engineers' Association, Gandaki Province
